VANDERBILT BREAKS RECORDS CLEAN SWEEP FOR SKATER WOOD Brooklyn Schoolboy Wins All Three Na-

tional Championships. DRIVES AUTO TEN MILES IN 6 The National Amateur Skating Association of the United States held its annual speed skating championships at Verona Lake, Montclair, yesterday in the presence of a few hundred persons. Owing to a slight pionship, Establishing World's Figures thaw the ice was rather slow and it was rough and uneven in spots, so that the times returned showed that the skating was first of 40 Minutes 49 4-5 Seconds-Acelclass. The track was six laps to the mile, rather a trifle too small and too sharp at the turns for real fast work.

The programme was made up of three

events of a half mile, one mile and five mile, and Maurice Wood of Euclid School, Brooklyn, distinguished himself by placing the three titles to his credit. He showed that he was in much better form than his opponents, all of whom seemed to be short of remain the mile and kilometer record trials To-day's races totalled 120 miles in all. work. Great things were expected of Belle feuille from Winnipeg, but the man from the icy region could not do better than secure with no hitch in the running but with one second place in the five mile race. In this event Otto Yale Sarony of the New York A. C. made a very good showing. About 600 yards from home he sailed to the front and led for a while, but the spurt proved disastrous to him, for he fell in a faint driver within. When picked up Ehlrich was with a badly lacerated face and a broken himself with glory, for he won the fifty

49 4-5 seconds. He won the ten mile inritation race in the record time of 6 minutes
60 seconds, an average of 41 seconds all
the way and the best average of the meet.
He captured also the ten mile championship race, time not being taken owing to
a short circuit. Mr. Vanderbilt will not
remain over for the time trials.
The metals race scheduled to open the

yards from home he sailed to the front and led for a while, but the spurt proved disastrous to him, for he fell in a faint at the finish and had to be borne off the ice. After a little rest, however, he revived and declared he was feeling all right.

The first event on the programme was the half mile and ten skaters faced the starter. At the flash of the gun Palliser was first to show in front and he led the field for the first lap with Merritt, Wood and Sarony close on his track. Around the first bend of the second lap Wood let out a link and sailed into first place and from that to the finish was never headed. He won by five yards from Merritt, who was about the same distance ahead of Bellefeuille. Sarony was fourth, several yards away.

After an intermission of twenty minutes, the skaters, eleven in number, were called out again for the mile. Wood, Sarony and Palliser darted to the front when the gun flashed but on the back stretch Bellefeuille took command and finished the first lap in the lead with Wood and Merritt in close attendance. In this order five laps were skated and when the bell rang Wood put on steam, came around the first bend with a wet sail, led along the back stretch, around the turn for home and down the home stretch, winning by 8 yards. Merritt, who was second, was three yards in front of Taylor, the third man.

A capital field of fourteen appeared for the five mile. When they got under way, Sarony showed in the van with Merritt, Wood and the Chicago man, Christopherson, close up. At the mile the Windy City skater was leading and he occupied the same position at the end of two miles. Toward the three mile post Wood took a turn at pacing and he led going by that mark. Christopherson as leading and he occupied the same position at the end of two miles. Toward the three mile post Wood took a turn at pacing in the next two laps. When the bell rang, Wood shot to the front and the issue was all over in a few seconds. He won by 7 yards from Bellefeuille, who beat Merritt Verona Lake S. C., second remain over for the time trials.

The match race scheduled to open the day between H. L. Bowden and S. B. Stevens was declared off. The two drivers met three times in races with the honors in favor of Stevens, who defeated Bowden in the ten mile invitation race and in the ten rule handicap contest.

Bowden defeated ten mile invitation race and in the ten mile handicap contest. Bowden defeated Stevens in the twenty mile handicap race.

Stevens did not compete in the championship in which Bowdon was second to Vanderbilt, driving a close race for twenty miles. The pair turned the twenty mile point three seconds apart.

Mr. Vanderbilt's best ten mile stretch in the fifty mile race, which was run with a turn at each ten miles, was the last, in which he did 6 minutes 57 2-5 seconds.

which he did 6 minutes 57 2-5 seconds.

After having cleaned up the races for which he was entered Mrs. Vanderbilt was taken for a ride by her husband, who carried her at a record gait up and down the course. Mrs. Vanderbilt appeared well pleased with the novel experience.

One of the notable records of the day was the ten miles made by G. H. Curtis in the motorcycle race. Mr. Curtis drove the ten miles in 8 minutes 54 2-5 seconds.

Barney Oldfield essayed ten miles, but did only 9 minutes 42 4-5 seconds. In the final furiong he began to tire, and twenty yards from the wire Capt. Arnold and Tribes Hill got to him. In a fighting finish Capt. Arnold managed to win by a nose on the post. Floral King secured the place by the same margin from Tribes Hill. It was a grand finish and the result was in doubt until the numbers were hung up. The race that Floral King ran was considered a grand one by turfmen. This colt certainly demonstrated to the satisfaction of every one that he is one of the best colts shown here this winter. He stood a hard drive in the final furiong.

Plunger Charlie Ellison won handsomely over the victory of Capt. Arnold. He presented \$200 to Jockey H. Phillips for winning the race with the son of Sir Dixon.

A clear day and an evenly balanced card brought out a large crowd. The racing was first class, but favorite players had much the worst of it, as top heavy choices were bowled over with a regularity that was astounding. The stewards this afternoon handed down a decisionin the Lee King race. They recommended that Jockey Higgins, the boy who rode Lee King, should not be permitted to ride for any one but T. A. Gay & Co. down to world's record time by Vanderbilt to-day, was 10 minutes 26 seconds, by Alexander Winton. Vanderbilt's 6 minutes vies 3 seconds.

Five Mile—Won by Maurice Wood, Euclid School;
G. Bellefeuille, Winnipeg, second; William H. Merritt, Verona Lake S. C. third. Time 16 minutes 59 seconds. Alexander Winton. Vanderbilt's 6 minutes 50 seconds was a considerable cut. Of the drivers now here Vanderbilt, Bowden, Stevens, W. Gould Brokaw and William Wallace, all announce that they will have cars of 90 to 120 horse-power next year.

F. A. Laroche will have his 180 horse power car, with 90 horse power on each axle, and believes that the mile in 39 will be possible. The meet will conclude with the time trials on Monday. Mr. Vanderbilt leaves to-night without further effort for the mile record.

LOCAL TURF GOSSIP. Brooklyn and Suburban Weights Will Be Made Public To-morrow.

The weights for the Brooklyn and the Suburban Handicaps will be made public to-morrow. It is generally expected that Waterboy will carry top weight in the Suburban, giving a pound to McChesney; while with the former out of it McChesney will probably receive the heaviest impost in the Brooklyn. Dick Welles, the Western fouryear-old, who is entered for the Brighton, was not named for either of the big stakes mentioned above. As third place in the weights will probably go to Hermis, so fourth and fifth places will go to last year's star three-year-olds, Africander and Irish Lad. Both handicaps have a great array of high class racers, but neither equals the \$25,000 Brighton in point of class and numbers. the latter event on paper being regarded as

Ryan declares that no bet, no matter how large, will be refused, and this in spite of his declaration three weeks ago that he would never speculate on the horses in any way again.

Bookmakers George Rose and Thomas Fitzgerald have been elected directors of the Los Angeles track, in which they are reported to be heavily interested financially. W. B. Sink, Jr., a well known trainer who has been operating on the Coast, has been engaged to train for a big stable in France this year, and will take along Jockeys Kiley and Charles Chandler.

George Thompson, the lightweight jockey, who rode with remarkable success on the French tracks last season, has decided, it is said, to remain here this season. He has improved greatly since last seen here, and his services will probably be in demand.

In releasing Lucien Lie from his contract the Messrs. Keene eat present without a first class rider. Ime people believe that through the influence of friends Tommy Burns may sign with the Keene stable if satisfactory terms can be made. Burns, after he left the employ of W. C. Whitney last year, accepted several mounts from the Keenes and gave satisfaction. He is free to sign with anybody, and hitherto it has been the opinion of numerous turfmen that he would return to the Whitney stable. But with Redfern and Romanelli booked to ride for Mr. Whitney this year, it would seem to be Burns's lot to seek an engagement elsewhere. Burns is riding in good form on the Coast and appears to have settled down to business.

In Russia they race 311 days each year.

Father Bill Daly is an early bird. With an eye on the spring meeting at Bennings he had some of his horses out on the Coney Island Boulevard yesterday. The snow made a soft footing for the racers and they were allowed to trot at an easy gait. Father Bill followed in his road wagon, shouting instructions to the midgets who had the mounts. The Sage of Hartford usually gets the money at Washington and later at Aqueduct Chicago Americans. While neither has admitted anything, it is asserted by several ball blayers who say they are "in the know" that a deal has been fixed up by which New York will trade Tannehill, Williams and possibly Chesbro to Chicago for Pitcher Flaherty, George Davis and Fielder Jones. Davis and Jones are under contract to the New York Nationals, but by the terms of the peace agreement they must play in Chicago with the American League club or be traded to some other team in that circuit. It is hardly probable that Chesbro would be included in such a trade, but Tannehill is in the market, and if Griffith could get Davis he would probably give up Williams for him.

The Adelphi Academy basketoan quintet met the Pratt High School five, and on the result of the game hinged the ownership of the handsome silver loving cup the teams contested for in a series of events. Adelphi swamped Pratt with one of the largest scores of the season. A total of fifteen goals from the field to one for Pratt was made by Adelphi in the first half. In the second period the Adelphians ran their total up to 57 points, while their opponents scored only 12 points. day night was remarkable for its closeness rather than for the averages and high runs made. The latter two accomplishments were under what has been done more than once by the topflight professionals. The game on Friday night was for the champlonship at 18-inch 57 points, while their opponents scored only 12 points.

Sixth Race—One mile and five-eighths—Handthe Olympia to-night between George Hack-enschmidt, otherwise known as the "Russian Lion," and Ahmed Madrali, who is called the "Terrible Turk" and is the Sultan's favorite wrestler, was the sporting event of the season. The match was for £1,700. There was the greatest interest in the affair owing to the fact that neither of the contestants had hitherto been defeated. They had met other so-called champions and defeated them in the easiest manner. Both men are of enormous strength. Madrali is over six feet tall and weighs 224 pounds. Hackenschmidt is 5 feet 8 inches tall and weighs 204 pounds. Madrali was a slight favorite with the sporting men owing to the advantage of his superior height and weight. He was handicapped, however, by the fact that he is a catch-ns-catch-can wrestler, whereas to-night's contest, which was entitled "for the championship of the world," was according to Græco-Roman style, of which Hackenschmidt is a master.

Six thousand persons were present in the Olympia to witness the match. In thirty seconds Madrali was thrown heavily on his right elbow, dislocating the arm. He exhibited the helpless limb to the audience. Amid the greatest excitement the referee awarded the victory to Hackenschmidt.

Burgeons who examined him say it will be six weeks before Madrali recovers the use of his arm. It is believed that at that time there will be another contest between the two men which will be more satisfactory than that of to-night.

Hackenschmidt and Madrali were matched a few weeks ago to meet for the Græco-Roman ekampionship of the world. Articlately after laderali's victory over Tome Cannon, the veteran English wrester, who after the bout acknowledged Madrali as the best man he had encountered in years. Those who saw the Turk perform declared that he was far superior as a wrestler to Yousouf or Noursiah, both of Turkey. The boy on Somenos was knocked off at the start. the authorities in St. Louis under certain restrictions. The police have notified the

interference if a typewritten list of club members' names is submitted, the sale or taking up of tickets at the doors is prohibited, and no prize or percentage is given to the fighters.

The managers of the clubs have accepted these conditions. They will furnish membership cards which will be shown but not taken up at the doors, and the fighters, who will be members of the clubs, will be paid a certain amount for their services. Numerous boxing clubs will do business on this plan during the World's Fair. Bloodhounds...

O'BRIEN MANAGED THE FIGHT. Hence a Groundless Charge That He and

Ryan Faked It. that the Ryan-O'Brien fight in Philadelphia last Wednesday night was not conducted according to the arrangements between the principals. It is asserted that O'Brien hired the clubhouse for the occasion and paid Ryan \$2,500 to meet him. Furthermore it is said that the men agreed to put up a slashing boxing bout that would go the limit. But, so the scandal mongers insist, O'Brien tried to "double cross" Ryan in the fifth round when he cut loose a punch that knocked the Syracuse pugilist to the floor. Then it was

when he cut loose a punch that knocked the Syracuse puglist to the floor. Then it was that Ryan, believing that his opponent was dealing in treachery, sailed in and beat O'Brien into a helpless condition. Afterward, in the sixth round, according to the yarn in circulation, both men concluded to stick to the original plan of action, and that was why Ryan did not attempt to put on the finishing touches.

Men who saw the fight and are competent to judge ridiculed this story yesterday. They said that both men fought on the level from the first round, and that up to the time Ryan scored a knockdown O'Brien had a good shade the better of it. If there had been an agreement between the men Ryan would never have consented to allow O'Brien to have such an advantage, eyewitnesses say, for Ryan is known to be particularly fearful of losing his assumed title of middleweight champion. But the fact that O'Brien practicully managed the fight has not been denied, a proceeding not calculated to create a feeling of confidence in future bouts so handled.

If Ryan and O'Brien fight twenty rounds in California and Ryan wins, it is long odds that he will have to take on Fitzsimmons or retire from the ring. Fitz says that he will fight either Ryan or O'Brien at 154 pounds, but as a matter of fact he can force either to fight him for the middleweight title at 158 ringside. Ryan has dodged a battle with the veteran Cornishman on several occasions, but he seems to be in a fair way to be placed on record one way or another.

man with 24 for the day. He was second for the month also with a total of 70. A. G. Southworth was third for the day with 22 and third for the month with 69.

Bennett also won a fifteen target trophy shoot, tieing with Grant Notman with a clean

score and winning on the shoot off with a full score to Notman's two less. Charles A. Sykes won a fifteen "arget event for a Madison Square Garden Feb. 10-13, for packs trophy from a field of eighteen contestants with a clean score of 15, four men tieing for second; they were T. W. Stake, F. T. Bedwith a clean score of 15, four men tleing for second; they were T. W. Stake, F. T. Bedford, Jr., Daniel C. Bennett and H. B. Vanderveer, with 14 each.

The Sykes team cup race was won for the day by H. B. Vanderveer and E. H. Lott, after tying with Capt. A. W. Money and Lewis C. Hopkins, each team getting 40. On the shoot-off Vanderveer and Lott scored 45 to their opponents' 43.

The Falmer memorial cup, at 25 targets, was shot for in two divisions. The first division was won by F. B. Stephenson with a score of 23, and the second by A. G. Southworth with a score of 24. A trophy shoot at fifteen targets was captured by Frederick T. Bedford, Jr., with a straight score; the runner-up was George G. Stephenson the fifteen target event with a straight score of 14. A renewal of the same event found A. G. Southworth and the veteran W. W. Marshall tied with 15, and on the shoot-off Marshall broke 12 to Southworth's 7

Frederick T. Bedford, Jr., won in another fifteen target event with a straight score of 15, four men tleing for second—F. B. Stephenson, A. G. Southworth, Capt. A. W. Money and H. B. Vanderveer.—each of whom made a score of 14. The final event was one of the best of the day. Henry C. Werlemann won with a score of 14 and Capt A. W. Money was second with 13.

\$5.00 per Bottle With Writte Note Our Claim-It Is Unfailing.

Marysville, Ont., Dec. 14, 1908.

The Troy Chemical Co., Troy, N. Y.
Gentlemen:—My horse was affected with a thoroughpin which rendered her almost useless, although a valuable animal, being one of a matched pair of roadsters. It was about the size of a goose egg both inside and outside of the leg. I tried some of our best veterinary skill as well as different blistering medicines, with no effect. I worked with it for about one year. Being a subscriber to the "Country Gentlemen," I saw you advertisement in it and determined to try it as a last resort, as I was discouraged with everything else. When I had used the first bottle I saw a change. This sencouraged me and I kept at it and completed a cure. I have no hesitation in asying that I believe "Save-the-Horse" is the best, and would advise all who have a horse so affected to use nothing but "Save-the-Horse." I give you permission to use my name. Yours truly,

Columbus Grove, Ohio, Dec. 21, 1909.

Harvard Defeats Columbia in an Uninter-

esting Game. The game of hookey between the teams of Harvard and Columbia at St. Nicholas Rink last night was an uninteresting one. Harvard won by a score of 2 to 0, chiefly through her players being in better condition rather than by superior skill at the game. There was little attempt at team work on either side, and the puck was kept rushing up and down the rink, and each player seemed up and down the rink, and each player seemed to be looking for individual honors. There was no scoring in the first half, and very few shots were made at either goal.

In the second half things went on quietly until the time was nearly up Then the Columbia players were tired out and Souther succeeded in sending the puck into the net. Von Bermuth stopped it, but the rubber rolled into the cage. Akin, who was tired out, retired, and Bode took his place. Clothier made the second goal, unassisted, for Columbia, Callaghan and Duden played well, and Von Bermuth did finely at goal.

Gold Heels Works a Mile and Will Be Trained NASHVILLE, Tenn., Jan. 30 .- T. P. Hayes, NASHVILLE, Tenn., Jan. 30.—T. P. Hayes, who recently leased the handicap horse, Gold Heels, from Hinde & Baker of Lexington, for the purpose of training him the conding season, worked the son of the bard today one mile over the Cumberland Park track at a trial to see whether the horse would stand training before entering him in the World's Fair Handicap.

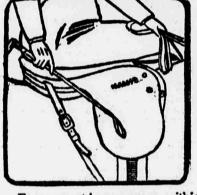

The winner of the Suburban Handicap stepped the route without an effort in 146 and cooled out nicely. Hayes notified Hinde and Baker that he would keep the horse.

Brown's Basketball Team Wins. PROVIDENCE, R. I., Jan. 30. -- Brown's basket-PROVIDENCE, R. I., Jan. 30.—Brown's basket-ball team defeated Williams here to-night in a close and exciting game by the score of 8 to 4. Williams could not throw a goal from the field, and only got her four points on goals from faults. Rackle and Capt. Ahrens played great basketball for Brown, while Neal played by far the best game for Williams, scoring all her points.
